CAREER SUMMARY

Highly organized and hard-working individual looking for a responsible position to gain practical experience. Always willing to innovate the new things which can improve the existing technology.

PROJECTS

Nova-Share(AI-Powered Medical Forum)

- Built a secure file sharing platform using **React.js**, **Node.js**, **Express.js** and **JWT** authentication with protected routes and HTTP-only cookies.
- Integrated **Cloudinary** for cloud storage, enabling file uploads and sharing via unique short links with optional password protection.
- Developed a real-time dashboard tracking uploads, downloads, and file stats stored in **MongoDB** with **Redux Toolkit** for state management.
- Deployed backend on **Render** with environment-based API configuration using Vite, ensuring seamless frontend-backend communication via **CORS**.

DailyDesk (RAG-based Legal Research Tool)

- Built a full-stack MERN digital journal app using React.js, Node.js, Express.js, and MongoDB with **CRUD** functionality
- Implemented **JWT**-based authentication with secure HTTP-only cookies and server-side validation for protected user data
- Integrated **Redux Toolkit (RTK Query)** for global state management and optimized API data fetching across the application
- Deployed a responsive React.js frontend styled with Tailwind CSS and **DaisyUI**, hosted on **Vercel** with full REST API backend

Credix-Sphere

- Built a **React + Firebase** web app enabling small business owners to digitally manage customer credit and payments.
- Implemented **Firebase Authentication** with protected routes to restrict dashboard access to authorized shop owners only.
- Integrated **Firestore** real-time database to track credit transactions, outstanding balances, and payment history per customer.

- Designed a responsive **Tailwind CSS** dashboard replacing manual ledgers, improving financial record accuracy for retail store owners.

SKILLS

Frontend React, JavaScript (ES6+), Zustand, Tailwind CSS, HTML, CSS.

Backend & Database Node.js, Express.js, MongoDB, Mongoose, JWT, Qdrant (VectorDB).

Tools & Deployment Git & Github, Vercel, Render .

Additional Skills Java (Core), OpenRouter, Prompt Engineering.

EDUCATION

Government College of Engineering – Salem.
BE in Mechanical Engineering

2022-2026
*CGPA – 7.63**
