

ELAMARAN M

FULL STACK DEVELOPER

☎ +91 9342587276 ✉ elamaran1928@gmail.com 🌐 [Portfolio](#) 🏠 Ariyalur, Tamil Nadu.

CAREER SUMMARY

Highly organized and hard-working individual seeking an opportunity to gain practical experience and enhance technical skills. Always eager to learn new technologies and contribute innovative ideas to improve existing systems.

PROJECTS

[Nova-Share \(AI-Powered File Management System\) | MERN | Groq AI](#)

- Developed a full-stack secure file sharing platform with **JWT authentication**, protected routes, and HTTP-only cookies, ensuring end-to-end security.
- Integrated **Groq's Llama 3.3 70B LLM** to enable **AI-powered smart file search** and **file summarization**, demonstrating practical LLM integration in a production app.
- Implemented **Cloudinary** for cloud storage with file uploads, unique short link sharing, optional **password protection**, and configurable file expiry.
- Built a real-time dashboard tracking uploads, downloads, and file statistics using **Redux Toolkit** for state management and **MongoDB** for persistent storage.
- Deployed frontend on **Vercel** and backend on **Render** with environment-based configuration, CORS handling, and Vite-powered build pipeline.

[DailyDesk \(RAG-based Personal Journal Assistant\)](#)

- Built a full-stack **MERN** digital journal app with **RAG pipeline** using **Qdrant** vector database and **OpenRouter LLM** for semantic journal querying.
- Implemented **JWT authentication** with secure **HTTP-only cookies**, server-side validation, and protected routes for user data privacy.
- Integrated **Redux Toolkit (RTK Query)** for global state management and optimized **REST API** data fetching with automatic cache invalidation.
- Deployed **React.js** frontend on **Vercel** and **Node.js/Express** backend on **Render**, styled with Tailwind CSS and **Daisy UI** with full CI/CD via GitHub.

[Credix-Sphere\(BAAS Firebase\)](#)

- Built a **React + Firebase** web app enabling small business owners to digitally manage customer credit and payments.
- Implemented **Firebase Authentication** with protected routes to restrict dashboard access to **authorized shop owners** only.
- Integrated **Firestore** real-time database to track credit transactions, outstanding balances, and payment history per customer.
- Designed a responsive **Tailwind CSS** dashboard replacing manual ledgers, improving financial record accuracy for retail store owners.

SKILLS

Frontend	React, JavaScript (ES6+), Zustand, Tailwind CSS, HTML, CSS.
Backend & Database	Node.js, Express.js, MongoDB, Mongoose, JWT, Qdrant (VectorDB).
Tools & Deployment	Git & Github, Vercel, Render .
Additional Skills	OpenRouter, Prompt Engineering.

EDUCATION

Government College of Engineering – Salem.
BE in Mechanical Engineering

2022-2026
CGPA – 7.63*
